

Tolls on Connecticut's borders "House Bill 6818"

Will cost the residents in the Town of Enfield addition expenses which we cannot afford.

Many of us work in Massachusetts, which is less than a few miles away and to pay a daily Toll is unfair.

The State needs to attract people to Connecticut to live, work and spend money and stop putting the burden on the middle class.

Our state is too small from border to border to make the taxpayers of this state pay more.

DO NOT PASS THIS BILL
